Smart ideas to **Make you look great!**

1 Save money on maternity clothes! Instead of buying maternity wear that you only use for a short time, try renting it! At the new website MineForNine.com, you can borrow clothing for one to three months at 75% off retail price, including casual, business and special-occasion outfits!

2 Your most flattering outerwear! To appear your slimmest in coats, look for a jacket that has a draw-cord or adjustable waist. That way, you can cinch the waistline to fit your shape, whether you're wearing a thin layer or a bulky sweater underneath!

3 Soothe aching feet! If your toes and the balls of your feet hurt after wearing high heels or evening shoes, there's a new product to help relieve the pain! TheraPED (\$9.99 at DrLeonards.com) is a strap-on foot wrap with gel pads that can be used hot or cold, plus it has spacers that help realign toes.

4 Tie on a trendy scarf look! To keep warm and look ultra-fashionable this season, twist two of your old scarves or pashminas together and then tie them around your neck! The mix of colors will add a fresh pop to coats and sweaters—and you can always take off one scarf if you get too toasty!
